Cover Crops, Tillage, & Trout: How Are They Connected?

Save the Date!

September 16, 2019

11:45 – 3:00 PM Light Lunch Provided

Location: Roger Helgeson Farm on Rice Creek,
(Rice County's only self-sustaining trout stream)

This field day will explore the watershed connections between agriculture, conservation, water quality, and wildlife habitat.

Featuring:

Farmer panel on cover crops and conservation tillage

Electro fishing demonstration and habitat discussion

Stream table and aquatic insect presentation
